# Why is this all so Important?

- Not all savings are equal
- Some things are cheaper commercial
- You must decide the best VALUE for your program
- BE SURE to confirm CREDITS and/or REBATES when processing!

# Develop a Cycle Menu

- Spend less time menu planning!
- Reduces inventory, product turns over quickly
- More productive employees because they produce same items every few weeks
- Procurement forecasting use production records

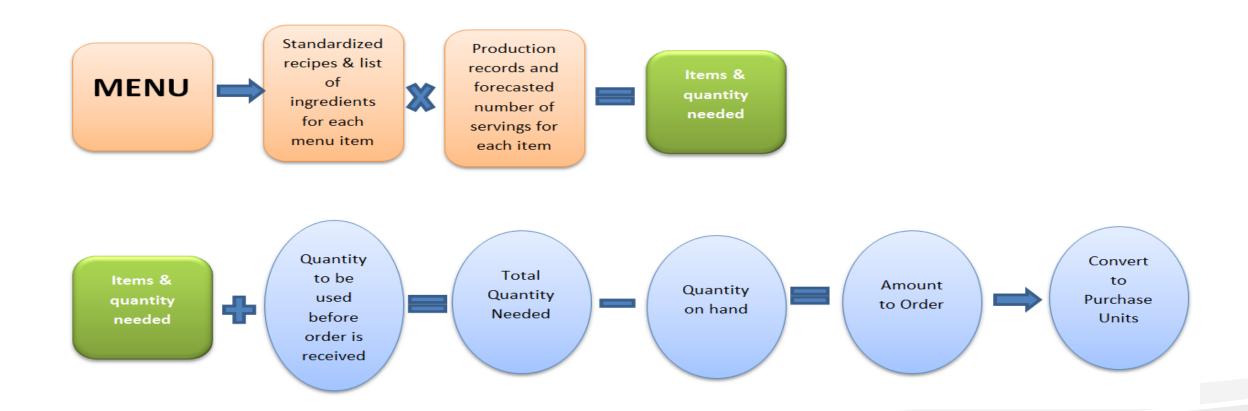

# Develop a Cycle Menu

- How many weeks? 3-6
- How many choices? Entrée, sides, milk, other
  - More choices, shorter cycle length
- Maximize use of USDA Foods
